Dr Mawson,

Commander Antarctic Expedition,

Dear Sir.

I am desirous of offering my services as photographer and kinematographer to the expedition. Have had over 11 (eleven) years practical experience in every branch and have given considerable time to scientific research in Photo-micrography and Natural History. My work is well known throughout Australasia and I have much pleasure in mentioning as references Mr J.J. Rouse, Aust KodaK Ltd; Mr John Harrington, Harringtons Ltd; Mr LeSeouf, Royal Zoological Society; Mr Hallman, Museum; Mr R H Branguin Sydney Technical College. or in fact any of the leading amateurs or professionals of Sydney.

I am 26 Years of age ~~and~~ unmarried, and have had a good share of "roughing it". At present I have a large commercial Photographic business and have much pleasure in inviting you to my rooms to see my work. As I have a very keen interest in the expedition and its object, I am prepared to offer my services absolutely free and any competitive arrangement I shall be pleased to submit to. Also hold Sydney Tech College, Honors certificates for Electricians.

(Dr Mawson 2)

I need scarcely add that in the interests of science and love of photographic art no diligent perseverance, thought and originality would be lacking to ensure success in my department,

Yours fthly,

J. H. Hurley
